

Ways to Activate TeamDirection Project for SharePoint

After Starting TD Project — click on *Help > Activate* then do one of the below:

a. Using a License ID and Password — Select "I have a License ID and Password", then enter your License ID and Password when prompted and click *Activate*. The license ID and PW were provided during the order process and are in your confirmation E-Mail as well.

b. Using a Registration Code — Select "I have a Registration Code", click Next, then enter the Registration Code and click *Activate*.

c. If you do not have a license ID and PW or a Registration Code then select "I want to buy a license", click *Next* twice, purchase the license on the web store as indicated, close the browser and enter the license ID and PW you received as part of the purchase process then click *Activate*
